

Release Notes for AMPS

v1.4 build 2

1. **Problem:** F5 does not load the saved column grid width for the Strategy Grid.
Status: This problem is fixed.
2. **Problem:** Modified values in grids are lost when the New button is pressed.
Status: This problem is fixed.
3. **Problem:** In the Planning Hierarchy screen, the Navigator is not displaying in agency-defined colours.
Status: This problem is fixed.
4. **Enhancement:** Enabled the Delete button for the grids when in edit mode so users can delete a record without being forced to complete and post the record before deleting it.
5. **Enhancement:** Set focus on the Code value (i.e. first edit control) on each screen after the New button is pressed.
6. **Enhancement:** In LWAG screen, added “Copy Labour”, “Copy Equipment”, and “Copy Materials” buttons to copy the resources from another LWAG.
7. **Enhancement:** In LWAG screen, added Act Code (GWAG + LWAG Code) to the Navigator.
8. **Enhancement:** In LWAG screen, display Act Code after LWAG label on the tool bar so if the Navigator is hidden, the user can still see what LWAG they are on.
9. **Enhancement:** In the Planning Hierarchy screen, added a “New Sibling” button to create a new sibling node record.
10. **Modification:** In the Planning Hierarchy screen, changed the caption of the “New” button to “New Child”.

v1.4 build 1

1. **Enhancement:** AMPS now supports Windows Server 2008.

v1.4 build 0

1. **Upgrade:** The third party controls (such as the grids, edit controls, etc) have been upgraded to the latest version.

v1.3 build 0

1. **Upgrade:** AMPS has been upgraded to support version 2 of the Microsoft .NET Framework. The [iBOSToolsPrerequisites_2_0.exe](#) install is needed for this

version of AMPS.

2. **Upgrade:** The third party controls (such as the grids, edit controls, etc) have been upgraded to the latest version.
3. **Modification:** Grid Layout and Form Layout settings are now stored by the AMPS User ID instead of Computer/Windows User ID combination. i.e. the settings are only specific to the AMPS user, not the computer that the user is running the software from.
4. **Problem:** The LWAG cost values on the Cost Data are calculated incorrectly when the Apply or Recalculate All button is pressed.
Status: This problem is fixed.
5. **Modification:** For the LWAG screen, added confirmation messages for the Set WAG Active, Set WAG Inactive, Recalculate, and Recalculate All menu items.
6. **Problem:** For the Strategy screen, the Activity Daily Cost and Activity Cost values are not being calculated when the Recalculate All button is pressed.
Status: This problem is fixed.
7. **Modification:** For the Strategy screen, added confirmation messages for the Cancel Strategy, Restore Strategy and Recalculate All menu items.

v1.2 build 1

1. **Modification:** Changed the column header filter button back to the large dropdown icon style.
2. **New Feature:** Added “Create New Year Data” button to the LWAG screen. This button only visible when the LWAG data does not exist for the selected fiscal year.
3. **New Feature:** Added “Create New Year Data” button to the Strategy screen. This button only visible when the Strategy data does not exist for the selected fiscal year.
4. **New Feature:** Added “Create New Year Data” button to the Planning Hierarchy screen. This button only visible when the Planning Hierarchy data does not exist for the selected fiscal year.

v1.2 build 0

1. **Upgrade:** The third party controls (such as the grids, edit controls, etc) have been upgraded to the latest version.
2. **Problem:** On the LWAG/Equipment Code dialog, the “Start Day” and “End Day” columns are editable for one time only. They should be editable all the time.

Status: This problem is fixed.

3. **Problem:** On the Planning Hierarchy screen, when creating the new planning hierarchy record that only has Standards tab, the validation message for the invalid data says Details tab.

Status: This problem is fixed.

4. **Problem:** On the Planning Hierarchy screen, the Details tab still shows the invalid data icons after the new record is cancelled.

Status: This problem is fixed.

5. **Problem:** On the Interactive Budget/New Budget dialog, by leaving the Version Name blank and click the OK button, two error icons show up. It should only show one error icon.

Status: This problem is fixed.

6. **Modification:** Modified the validation message for the Strategy screen to tell the user there is invalid data in the Activity List grid.

v1.1 build 20

1. **Upgrade:** The third party controls (such as the grids, edit controls, etc) have been upgraded to the latest version.

v1.1 build 19

1. **Upgrade:** The third party controls (such as the grids, edit controls, etc) have been upgraded to the latest version.

v1.1 build 17

1. On the LWAG screen:
 - a. **Problem:** If click the ReCalculate All button, the process cannot be stopped.
Status: Problem fixed. A Cancel button has been added to cancel the process.
 - b. **Problem:** If a LWAG is not Active, when trying to set the LWAG to Active, an error message will show up.
Status: The problem has been fixed.
 - c. **Problem:** On the Strategy screen, Planning Data tab, when no record entered, the total % is 100 when it should be 0.
Status: The problem is fixed.
2. **Problem:** On the Strategy screen and Planning Hierarchy form, the Must Follow column should be hidden, but when reading the grid layout from the hard drive, this column appears.
Status: This problem has been fixed.

3. On the Planning Hierarchy screen:
 - a. **Problem:** In the Details tab the grid the “Percent”, “Conversion”, “Work Qty” columns should be enabled/disabled according to different situations. Sometimes the Grid Layout file on hard drive becomes corrupt making some of columns disabled when they should be enabled.
Status: This problem is fixed.
 - b. **Problem:** When Funding records are added / deleted in the Funding tab, if the current record has children and the children records have the Use Parent Funding check box checked, the current record’s Funding data is not copied to children.
Status: This problem is fixed.
 - c. **Problem:** If you uncheck the Use Parent Funding check box and then Cancel the operation, the Funding records on Funding tab will be gone.
Status: It is fixed.
4. On the Interactive Budget screen:
 - a. **Problem:** When you edit the Budget using Strategy, the Activity Code column data is not properly formatted and may not show up.
Status: The problem is fixed.
 - b. **Problem:** If you uncheck the Use Parent Funding check box and then Cancel the operation, the Funding records on Funding tab will be gone.
Status: It is fixed.
5. Made some minor cosmetic changes.
