

AMPS Control Panel Release Notes

v1.4 build 1

1. **Enhancement:** AMPS Control Panel now supports Windows Server 2008.

v1.4 build 0

1. **Upgrade:** The third party controls (such as the grids, edit controls, etc) have been upgraded to the latest version.

v1.3 build 0

1. **Upgrade:** The third party controls (such as the grids, edit controls, etc) have been upgraded to the latest version.

v1.2 build 0

1. **Upgrade:** AMPS has been upgraded to support version 2 of the Microsoft .NET Framework. The [iBOSToolsPrerequisites_2_0.exe](#) install is needed for this version of AMPS CP.
2. **Upgrade:** The third party controls (such as the grids, edit controls, etc) have been upgraded to the latest version.
3. **Modification:** Grid Layout and Form Layout settings are now stored by the AMPS CP User ID instead of Computer/Windows User ID combination. i.e. the settings are only specific to the AMPS CP user, not the computer that the user is running the software from.

v1.1 build 1

1. **Modification:** Changed the column header filter button back to the large dropdown icon style.
2. **New Feature:** Added “Create New Year System List Data” button to the Fiscal Year screen. This button only visible when the System List data does not exist for the selected fiscal year.

v1.1 build 0

1. **Upgrade:** The third party controls (such as the grids, edit controls, etc) have been upgraded to the latest version.
2. **Problem:** On the GWAG screen, the error “[Error source: Vemax.AMPS_CP1_9: repositorySpnADP_EditValueChanging()] Object reference not set to an instance of an object.” occurs when the user edits the ADP column.
Status: This problem is fixed.
3. **Problem:** On the Labour Code screen, the error [Error source: Vemax.AMPS_CP1_5: repositoryItemSpinEdit1_EditValueChanging()]

Object reference not set to an instance of an object.” occurs when the user edits the Unit Rate column.

Status: This problem is fixed.

4. **Problem:** On the Equipment Code screen, the “Start Day” and “End Day” columns are editable for one time only. They should be editable all the time.

Status: This problem is fixed.

v1.0 build 19

1. **Upgrade:** The third party controls (such as the grids, edit controls, etc) have been upgraded to the latest version.

v1.0 build 18

1. **New Feature:** Added the Release Notes menu.
2. Made minor cosmetic changes.

v1.0 build 17

1. **Problem:** On the Labour, Equipment, and Materials screens, when restore the grid layout from a saved file, the UoM Code column becomes hidden.
Status: This problem is fixed.
2. **Problem:** On the Labour, Equipment, Materials and GWAG screens, the UoM Code column and UoM Description column is not sorted properly.
Status: This problem is fixed.
3. **Problem:** On the Funding Source screen, there is a newly added column: Limit, if the data in this column is changed, the main form is not greyed.
Status: This problem is fixed.
4. **Problem:** On the GWAG screen, if the Work Program column is empty and add new record, validation will force the Work Program to be required. But changes to the Work Program column will be in the newly added row, not in the current row.
Status: This problem is fixed.
5. Made minor cosmetic changes.
