

## WRM Release Notes

### v1.7 build 1

1. **Enhancement:** WRM now supports Windows Server 2008.
2. **Upgrade:** The third party controls have been upgraded to the latest version.

### v1.6 build 3

1. **Problem:** Sewer Connections screen: the switch grid/card view button is not displayed in the grid tool bar.  
**Status:** This problem has been resolved.

### v1.6 build 2

1. **Problem:** Sewer Connections screen: if you try to enter a second record on the Condition tab a validation message displays saying there is incorrect data on the condition history tab even though there are no errors.  
**Status:** This problem has been fixed.
2. **Upgrade:** The third party controls have been upgraded to the latest version.

### v1.6 build 1

1. **Problem:** Error message “Error: Type of value has a mismatch with column typeCouldn't store <System.Drawing.Bitmap> in Open Column. Expected type is Byte[]” occurs in “Sewer Connections” screen.  
**Status:** This problem has been fixed.

### v1.6 build 0

1. **Upgrade:** WRM has been upgraded to support version 2 of the Microsoft .NET Framework. The iBOSToolsPrerequisites\_2\_0.exe install is needed for this version of WRM.
2. **Upgrade:** The third party controls (such as the grids, edit controls, etc) have been upgraded to the latest version.
3. **Modification:** Grid Layout and Form Layout settings are now stored by the WRM User ID instead of Computer/Windows User ID combination. i.e. the settings are only specific to the WRM user, not the computer that the user is running the software from.

### v1.5 build 0

1. **Upgrade:** DevExpress controls have been upgraded to the latest version.

### v1.4 build 4

1. **Problem:** In the Sewer Connection screen the save may fail depending on the date format of the computer.  
**Status:** This problem has been fixed.

#### v1.4 build 3

1. **Problem:** In the Sewer Connection screen the date in the Crew Date Search Scheme may read the date format incorrectly.  
**Status:** This problem has been fixed.

#### v1.4 build 2

1. **Problem:** In the DWR screen, when entering new activity record the Activity dropdown list is sometimes empty.  
**Status:** This problem has been fixed.

#### v1.4 build 1

1. **Problem:** In the flushing and brushing screen, some computer's have security set up so that dBase files with file names longer than 8 characters cannot be opened and read, therefore on certain computers the import of hand held files will fail.  
**Status:** This problem has been fixed by modifying the import routine to now make a temporary copy of the file with a shorter name.
2. **Problem:** In the DWR screen when you clear the Start Date field an unknown error occurs.  
**Status:** This problem has been fixed.
3. **Problem:** In the DWR screen, when navigating the records the screen is very slow to load.  
**Status:** This problem has been fixed.

#### v1.4 build 0

1. **Problem:** When an error occurs during the import of handheld data it is not clear if it is a result of invalid data or if it is a defect.  
**Status:** This problem has been fixed by displaying an import log when the import of hand held data is not successful. The message that displays when the import fails asks the user to check the log for invalid data. The log displays when the user closes the message dialog.
2. **Upgrade:** DevExpress controls upgraded to latest version.

#### v1.3 build 32

1. **New Feature:** Added the menu item Release Notes to the Help menu.
